SUMMARY

Full stack web developer leveraging a customer service background to build a more intuitive user experience on the web. Holds a certificate in full stack development at UC Berkeley Extension, with newly developed skills in JavaScript, CSS, Node.js, React.js, and responsive web design. Known as an innovative problem solver, mentor, and great communicator who is passionate about developing apps, with a focus on writing quality and professional code. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of UX and agile development in a recent project. I worked on a team of three to develop a single-page MERN app called Happening that helps communities organize, plan, and create events for community building. In a different project, Nostalgia Generator, with a team of four, I created all the javascript logic with comments to help my team understand the code I had written. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

Applications: GitHub, MongoDB, MySQL, Insomnia

Tools: Express, React, Node, Handlebars, Bootstrap, Material UI

PROJECTS

E-Commerce Back End | <https://github.com/icortes/e-commerce-back-end>

- Summary: RESTful API for an e-commerce back end that can create, read, update, and delete
- Role: Sole author
- Tools: JavaScript, Node.js, Express.js, Sequelize ORM, MySQL, Insomnia

Book Search Engine | <https://github.com/icortes/book-search-engine> | <https://sheltered-brook-96875.herokuapp.com/>

- Summary: The Book Search Engine has been converted from using a RESTful API to a GraphQL API built with Apollo Server.
- Role: Sole author
- Tools: JavaScript, Node.js, Express.js, Mongoose, MongoDB, GraphQL, JWT

Shop-Shop Redux Store | <https://github.com/icortes/redux-store> | <https://whispering-brushlands-70963.herokuapp.com/>

- Summary: This application originally used global state using React's Context API. It is now refactored to use Redux while still maintaining full functionality.
- Role: Sole author
- Tools: JavaScript, Node.js, Express.js, Mongoose, MongoDB, GraphQL, JWT, bcrypt, Redux

Note Taker | <https://github.com/icortes/note-taker> |
<https://evening-temple-99179.herokuapp.com/>

- Summary: This is a note taking app that creates, saves, and deletes notes.
- Role: Sole author
- Tools: JavaScript, HTML, CSS, Node.js, Express.js, uuid, RESTful API

EXPERIENCE

Cashier Team Member (Front End Service)

2018 – 2019

Whole Foods Market

Redwood City, CA

Assisted customers during the check-out process, performed all cash register functions, bagged groceries, and worked the customer service desk.

Key Accomplishments:

- Checked out hundreds of customer groceries efficiently and accurately a day.
- Won two awards for excellent customer service.

Front End Cashier

2016 – 2017

Chavez Supermarket

San Mateo, CA

Received payments in the form of cash, checks, and credit cards from customers and/or employees in exchange for goods or services. Bilingual skills (English and Spanish).

Key Accomplishments:

- Moved to team leader after one year.
- Trained new employees for all front end positions: cashier, taqueria, and ice cream bar.
